As Administrator, you will set up users and classes in SuccessNet.

Logging In

You will receive a SuccessNet username from your Territory Manager, and a password will be sent to you through a system generated email.

Rostering

The first thing you will do as administrator is log into [SuccessNet](#) and create the teacher accounts either through the bulk upload process or create them individually. See the next two pages for instructions on both processes.

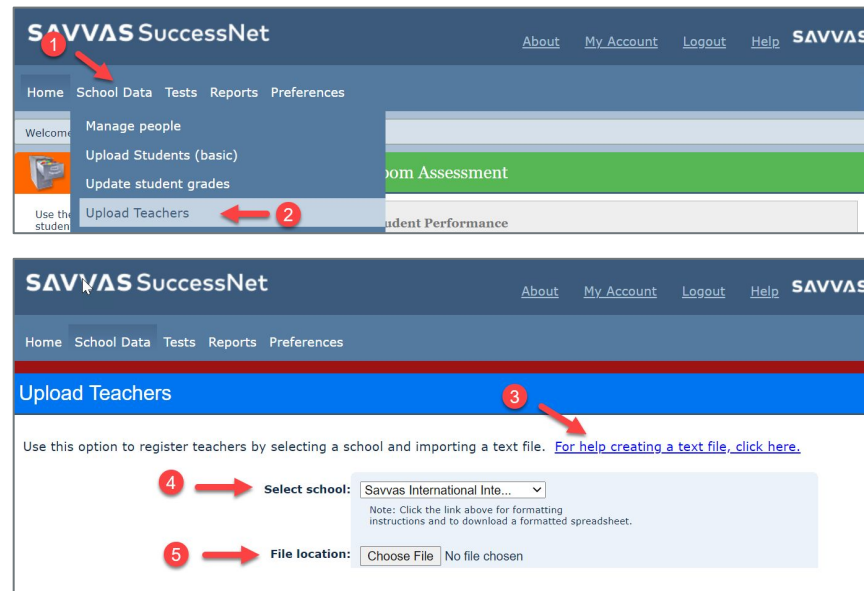

Admin Role: Creating Accounts Bulk Upload

Administrators will log into [SuccessNet](#) to create and manage teacher accounts. The administrator has the ability to bulk import teacher accounts or add them individually.

To Bulk Upload

1. Log in to SuccessNet
2. Select Upload Teachers in the dropdown
3. Click on the For help creating a text file link to create a list of your teachers and follow the steps and template provided
4. Click on Select School when you are ready to upload, and select the school for which you are completing the upload
5. Click on the Choose File button to upload your teacher list

You can also bulk upload and create students using the same processes as above, but select one of the Upload Students options in step 2.

Teachers, you will log into [Canada Realize](#) to create classes, manage student accounts, and make assignments. Your students will also log in to Canada Realize to access their accounts and assignments.

The first thing teachers will do is set up classes. Only Teachers can create classes in Canada Realize.

1. **If your administrator entered your students in SuccessNet**, you will need to create a new class and search for students from the roster.
2. **If your administrator did not enter students in SuccessNet**, you will create your students' accounts.

See the next two slides for more information about creating your classes.
